

A young man with dark hair and brown eyes, wearing a dark blue shirt, is smiling slightly and looking towards the camera. He is working on a car engine in a workshop. The background is blurred, showing other people and equipment. A white text box with a dashed border is overlaid on the right side of the image.

Titles come with **additional resources** such as student activities and support notes to assist teachers.

Popular titles included in this collection

Featured series

Tools of the Trade Series

A worker is only as good as his or her tools. This quality series inventories basic trade-specific gear while giving viewers a glimpse of what it's like to be plumber, carpenter, mason, welder, electrician, or automotive technician. Tool use is demonstrated within the context of real-world applications; safety considerations and code concerns are flagged. A comprehensive overview of popular - and profitable - trades!

Titles included in this series:

- Inside the Welder's Toolbox
- Inside the Electrician's Toolbox
- Inside the Carpenter's Toolbox
- Inside the Mason's Toolbox
- Inside the Plumber's Toolbox

2007 | 218 min

Worksite Communication Skills

This video comprises of basic communication skills as they are applied within industrial or commercial trade settings such as construction sites, engineering or fabrication workshops and manufacturing enterprises. Communication with CALD workers is examined as well as using the phone and face-to-face communication.

2014 | 20 min

Safe Work Practices in Welding

This video will assist students in identifying the work-specific hazards associated with welding including electrical safety, light and heat, confined spaces, manual handling, and metal fumes and gases. Warning: this programme contains graphic imagery that some viewers may find disturbing.

2014 | 21 min

Using Power Tools Safely

This video presents the potential hazards and the correct use of angle grinders, jack-hammers, circular saws, and power drills. Warning: this programme contains graphic imagery that some viewers may find disturbing.

2014 | 21 min

WHS in Electrical Trades

This video looks at the risks of working with electricity, recognising where hazards may come from and how the hazards can be identified. Warning: this programme contains graphic imagery that some viewers may find disturbing.

2014 | 16 min

Design for Sustainability

This programme looks at the essential aim of sustainable design, which is to produce places, products and services in a way that reduces use of non renewable resources, minimises environmental impact and relates people with the natural environment.

2008 | 26 min

Data Mining - Big Data's Increasing Challenge and Payoff

This interview-led programme explains exactly what data mining is, the data collected, uses of data mining, the data processes involved and tips for successful data mining.

2012 | 25 min

Popular titles included in this collection

ICT Project Management

In this programme we follow the iPod and iPad development team at Bjango Software as we examine the management and development of a complex ICT project. We follow through the stages of a project's life cycle, from conception and planning, to building and testing, and finally implementing and evaluating the product.

2011 | 21 min
