It's an exciting and challenging time for Further Education as the spotlight falls on the sector to train the next generation of employees. Technology is helping Further Education Institutions to attract more students, diversify incomes and improve business efficiencies through the provision of flexible online offerings and a more personalised learning paths experience.

ABOUT BRIGHTSPACE

Brightspace is a cloud-based learning platform that makes online and blended learning easy, flexible, and smart. Brightspace is not like a traditional Virtual Learning Platform (VLE)—it is easy to drag-and-drop content to create engaging courses, better uptime, supports all mobile devices, and is accessible for all learners. Plus, Brightspace enables the future of learning with a gaming engine, adaptive learning, video management, intelligent agents, course interactives, full support for outcomes or competency-based learning, and world-leading learning analytics.

ABOUT D2L

D2L believes learning is the foundation upon which all progress and achievement rests. Working closely with clients, D2L has transformed the way millions of people learn online or in the classroom. Learn more about D2L for schools, higher education and further education at www.D2L.com.
