

## **Digital Skills Remote Learning Products and At Home Certification Solutions for BLC Members**

Prodigy Learning are an award-winning global EdTech business with a mission to provide **digital skills certifications and learning solutions** for [Adobe](#), [Autodesk](#), [Microsoft](#) and other technologies to everyone across the globe. Now more than ever with job uncertainty and the need to pivot whole business models it is essential for students and employees to continue to earn these IT Certifications which deliver job-ready skills and improve employability.

Our team has been working tirelessly to help individuals develop and certify digital skills from the comfort of their own home. Here are a couple of things we have available to BLC members:

### **1. Remote Learning Products – Video Learning & Practice Tests**

Prodigy Learning offers a range of **online video learning, online skills assessments and practice tests** to support **'At home' distance learning of future-ready digital skills** from Microsoft, Adobe, Autodesk, Cisco, CompTIA, Oracle, VMWare and EC-Council.

### **2. 'At Home' Certification Solution**

We are delighted to announce that our typically 'in person, in classroom' **invigilated certification solutions can now be delivered remotely!** Our support team have been working nonstop to prepare a solution to **enable exam candidates to test remotely.** This involves candidates taking (available) exams from their home computer rather than attending a physical Authorised Testing Center. Candidates do not need to install any software on their computer to take an exam at home, the exam is accessed through a web browser, so web connectivity is required.

*This solution is available to Prodigy Learning customers and authorised testing centres.*

### **3. Stand out in a crowded recruitment market with online digital badges linking to live job data for additional employability**

Both remote learning solutions and certification exams are offered via annual exam packs designed to give you flexibility with delivering digital skills to students and staff, at a significantly reduced rate.

*Prodigy Learning are delighted to offer all members of the BLC an introductory offer of 15 months for the price of 12 on any new academic exam pack.*

Speak to a member of our team to discuss setting up as a testing centre by [clicking here](#). Alternatively please message [andrew.lenehan@prodigylearning.com](mailto:andrew.lenehan@prodigylearning.com) for more information and to be connected to a member of the Prodigy Team in your region.
