

Discounted products and services

As a part of our commitment to working with the Blended Learning Consortium and its members, Quiss Technology will discount all products and services for all its members.

Exclusive Blended Learning Consortium Offer

QUISS TECHNOLOGY PLC

Claymore, Tame Valley Industrial Estate, Tamworth, B77 5DQ

TELEPHONE 0333 222 4334 EMAIL enquiries@quiss.co.uk

www.quiss.co.uk

Here are some of the main services and products that we offer:

- 1. All support mechanisms**
Including software support and hardware support on an unlimited basis. Heavily discounted by 35% for all members.
- 2. All consultancy services**
No matter how big or small a job may be, we will provide your organisation with reduced rates of 35% for project work and consultancy required.
- 3. All Cloud/hosted services**
This includes all of our Cloud based computing products, again heavily discounted by 35% for all members. We will also remove all set up charges for you too.
- 4. All training services**
This includes all end user training services which will be heavily discounted by 35% for all members.
- 5. All eLearning services**
Our eLearning audit services help devise, develop and build a digital strategy and policy with specific impact driven outcomes and to ensure you are OFSTED ready. Our strategies focus on minimising your long term costs and maximising your return on investment (ROI). We identify the necessary steps to ensure your staff are guided in the use and adoption of eLearning provision.
- 6. All procurement services**
Members will be able to purchase equipment and software from us on a cost plus 1% basis regardless of quantity.

Quiss Technology

Quiss Technology provides a comprehensive range of hosted and on-premise IT and telephony support solutions for businesses.

Launched in 1988, we are proud to have been the first UK IT service provider to achieve ISO27001: 2013 giving our customers peace of mind that their data is secure.

Our clients also benefit from the support of our 60 strong support team of helpdesk engineers, field service engineers and network specialists all over the country to support their IT infrastructure.
